

Project Design Phase

Proposed Solution

Date: 03/11/2025
Team ID: NM2025TMID04420
Project Name: To Supply Leftover Food to Poor
Maximum Marks: 2 Marks

| S.No. | Parameter | Description |
|-------|-----------------------------|---|
| 1 | Problem Statement | Leftover food is wasted while many poor people struggle for meals. |
| 2 | Idea / Solution Description | Donors notify leftover food, volunteers collect and distribute it safely. |
| 3 | Novelty / Uniqueness | Simple community-driven model reducing food waste. |
| 4 | Social Impact | Provides meals for the poor and encourages responsible donation. |
| 5 | Business Model | Not revenue-based; supports NGOs and reduces waste costs. |
| 6 | Scalability | Can expand city-wide with app integration and NGO partnerships. |

Solution Description:

A simple system where donors share leftover food and volunteers deliver it to poor communities. It reduces waste and supports the needy effectively.
