Project Name: To Supply Leftover Food to Poor

Maximum Marks: 2 Marks

### **Problem – Solution Fit Template:**

The Problem–Solution Fit simply means understanding a real problem faced by the community and ensuring the proposed solution effectively solves it. This project focuses on the issue of leftover food wastage and the struggle of poor individuals to access daily meals. Our solution aims to collect, verify, and distribute leftover food safely and efficiently to the needy.

### **Purpose:**

- Reduce wastage of edible leftover food.
- Connect donors like hotels, homes, and events to poor communities.
- Ensure timely collection and delivery of food through volunteers.
- Build trust between donors, volunteers, and beneficiaries.
- Improve awareness about food wastage and responsible redistribution.

### **Template:**

(Same as sample PDF layout – no additional content required)

## **Project Summary:**

The project “To Supply Leftover Food to Poor” provides a structured system to collect leftover food from households, restaurants, and events, and distribute it to poor and homeless individuals. By ensuring food safety, proper coordination, and volunteer involvement, the project reduces food wastage and supports community welfare.
